Product brochure

> The e-STUDIO2802AM/2802AF have a footprint equivalent to that of an A4 printer, but they are also able to print, scan and copy A3 formats. Their compact size means they fit perfectly in any working environment. Via bypass feeding and the Automatic Document Feeder, you can switch effortlessly to the larger format when needed.

TOGETHER INFORMATION

KEY FEATURES

1 Print, scan and copy in A3 on a system with an A4 footprint.

2 Impressive image quality at a speed of 28 pages per minute.

3 Economically and ecologically efficient thanks to duplex printing, internal toner recycling and energy save modes as standard.

Even if space is limited — your possibilities are not.

BENEFITS

Space is often limited and printing solutions often need to be extremely flexible, in order to cater to all the different documents that are needed. Even though printing in A4 format is the standard, in many cases there are tasks that require A3 printing, scanning, and copying, too. But more often than not, companies simply do not have the space for a conventional A3 format multifunctional system. That is precisely why Toshiba developed the e-STUDIO2802AM/2802AF.

Small space - large functionality
Thanks to its modern, clean lines and streamlined contours, the unit fits harmoniously into its surroundings. But looks aren't everything. Packed with all functions needed in a modern office environment - including colour scan - the systems are extremely reliable.

Connectivity
The e-STUDIO2802AM/2802AF are easy to integrate into existing networks. You can also print and scan directly from USB.
Businesses which require the fax function should opt for the e-STUDIO2802AF - it has the fax as a standard feature.

Intuitive Usage
Ease-of-use is key if you want to be productive. Therefore, we made sure all functions are easy to access and intuitive to use.

Efficiency
With the e-STUDIO2802AM/2802AF, you can increase your efficiency in multiple ways. Thanks to resource saving features, ecological efficiency, directly translates into economical efficiency. Which means you benefit by saving money thanks to the low running costs.
